Conference Agenda

6:45 – 7:30 | Doors open/Continental Breakfast with Exhibitors/Registration

7:30 – 7:40 | Welcome/Opening Remarks
- Honor Guard (TFD)  Mark Blaney, RN, BSN, CEN
Main Ballroom- Greater Tacoma Convention & Trade Center

7:40 – 8:40 | Keynote Address: Changing the Paradigm: Tactical Emergency Casualty Care for High Threat Medical Response
Main Ballroom  E. Reed Smith, MD, FACEP

8:40 – 9:40 | General Session: Rehabilitation after Trauma: Does it Make a Difference.
Main Ballroom  Saman Arbabi, MD, MPH, FACS

9:40 – 9:55 | Break with Exhibitors

9:55 – 1040 | BREAKOUT SESSION 1
Greater Tacoma Convention & Trade Center

Room 315: Altitude Illness: Basics to Latest
- Col. Ian Wedmore, MD, FACEP
Objective: Recognize the signs & symptoms of altitude illness and best practices for treatment.

Room 316: Penetrating Cardiac Injury
- LTC. Daniel G. Cuadrado, MD, FACS
- William E. Eggebroten, MD, FACS
Objective: Identify, rapidly triage and treat penetrating cardiac injuries and understand the role of pericardiocentesis, resuscitative thoracotomy and surgical repair.

Room 317: Post-Traumatic Seizures and Epilepsy
- Seth J. Stankus, DO
Objective: Describe the signs & symptoms of post-traumatic seizures and epilepsy.

Room 318: Pediatric Trauma Case Studies
- Mauricio A. Escobar, Jr., MD, FACS, FAAP
Objective: Describe pediatric penetrating neck and bile duct injuries.

Courtyard Marriott Hotel

Cascade Ballroom: Simulation: MASCAL: What Right Looks Like
- LTC. M. Imad Haque, MD & FACS
- LTC Christine M. Vaccaro, DO, FACOG
Objective: Demonstrate triage and evacuation techniques for a mass casualty.
Note: This is an interactive simulation that includes lifting, pushing, pulling and the use of simulated blood. Clothing may become soiled or stained. Participants should dress accordingly. Participation is at your own risk.

10:40 – 1050 | Break with Exhibitors
1050 – 1135  **BREAKOUT SESSION 2**

**Greater Tacoma Convention & Trade Center**

**Room 315:** Oso: Triage, Treatment & Transport. The First 4 Hours of the Aerial Rescue Response at a Disaster.
   
   **Ed Hrivnak RN, BSN**

Objective: Illustrate the two major problems that developed during the response to the Oso disaster and how triage, treatment and transport can be improved for the next disaster.

**Room 316:** The Good, the Bad and the Ugly Part Deux: Updates in Anticoagulation
   
   **Michelle Strong, MD, PhD, FACS**

Objective: Discuss new anticoagulation agents including pharmacology and appropriate uses.

**Room 317:** Sedation, Analgesia & Delirium in the ICU
   
   **James Taylor, MD**

Objective: Describe current best practices for managing the sedation & analgesia needs of ICU patients.

**Room 318:** Understanding Cervical Spine Fractures
   
   **Andrea R. Gravatt, MD, FAAP, FAWM**

Objective: Describe epidemiology of cervical spine injuries, common cervical spine fractures in pediatrics and their clinical presentation and management.

---

1135 – 1230  **Lunch with Exhibitors**

---

1230 – 1315  **BREAKOUT SESSION 3**

**Greater Tacoma Convention & Trade Center**

**Room 316:** Compassion Fatigue
   
   **Ed Hrivnak, RN, BSN**

Objective: Describe how lessons learned from military deployments can be applied to healthcare providers.

**Room 317:** ECMO: Who, What, Why and How
   
   **Sandra M. Wanek, MD, FACS and Diane Braxmeyer Downey, RN, BSN, CNRN, CTRN, CFRN**

Objective: Discuss the role of a regional ECMO Center.

**Room 318:** Pediatric Trauma and Emergency Care in the Combat, Austere, or Rural Environment
   
   **Col. Matthew J. Martin, MD, FACS**

Objective: Describe the difference in mortality rates between injured children vs. adults in the combat or battlefield environment.
Courtyard Marriott Hotel

Cascade Ballroom: Simulation: MASCAL: What Right Looks Like
LTC. M. Imad Haque, MD, FACS & LTC Christine M. Vaccaro, DO, FACOG

Objective: Demonstrate triage and evacuation techniques for a mass casualty.
Note: This is an interactive simulation that includes lifting, pushing, pulling and the use of simulated blood. Clothing may become soiled or stained. Participants should dress accordingly. Participation is at your own risk.

Pearl Room: Pediatric Dosing and Administration
Christian Hamm, PharmD, BCPS; Yijing (Jenny) He, PharmD, BCPS & Tasheba West, PharmD, BCPS, MS

Objective: Demonstrate how to calculate pediatric doses of commonly used medications in urgent scenarios (For the non-pediatric provider).

Ruston Room: Broselow™: The Good and the Bad
Mary Koelemay, MD, MPH
Objective: Express 3 benefits of using a color-coding system in pediatric patients.

Commerce Room: The Really Big One: Medical Surge and Crisis Standards of Care
Vicki Sakata, MD, FAAEM, FAAP

Objective: Describe the indications and factors involved in deciding whether to evacuate or shelter in place.

1315 – 1325
Break with Exhibitors

1325 – 1410
BREAKOUT SESSION 4

Greater Tacoma Convention & Trade Center

Room 316: Disaster Planning and Response: The Role of FEMA USAR Teams
Larry Woodard, MD
Objective: Restate the disaster planning cycle & how to obtain FEMA participation in disasters.

Room 317: Barotrauma
Edmond Kay, MD, FAAFP
Objective: Discuss techniques for preventing barotrauma.

Room 318: A Tough Call: End Points in Pediatric Resuscitation
Ella Cameron, MD, MPH, MSc
Objective: Recognize both prehospital & hospital pediatric resuscitation end points that are clinically relevant based on current literature & evidenced-based medicine.

Courtyard Marriott Hotel

Cascade Ballroom: Simulation: MASCAL: What Right Looks Like
LTC. M. Imad Haque, MD, FACS & LTC Christine M. Vaccaro, DO, FACOG

Objective: Demonstrate triage and evacuation techniques for a mass casualty.
Note: This is an interactive simulation that includes lifting, pushing, pulling and the use of simulated blood. Clothing may become soiled or stained. Participants should dress accordingly. Participation is at your own risk.

Pearl Room: Pediatric Dosing and Administration
Christian Hamm, PharmD, BCPS; Yijing (Jenny) He, PharmD, BCPS & Tasheba West, PharmD, BCPS, MS

Objective: Demonstrate how to calculate pediatric doses of commonly used medications in urgent scenarios (For the non-pediatric provider).
Ruston Room: Broselow™: The Good and the Bad  
Mary Koelemay, MD, MPH  
Objective: Express 3 benefits of using a color-coding system in pediatric patients.

Commerce Room: The Really Big One: Medical Surge and Crisis Standards of Care  
Vicki Sakata, MD, FAAEM, FAAP  
Objective: Describe the indications and factors involved in deciding whether to evacuate or shelter in place.

Break with Exhibitors  
1410 – 1420

BREAKOUT SESSION #5  
Greater Tacoma Convention & Trade Center  
Room 315: Emergency Room Management of Open Fractures  
Ryan E. Will, MD  
Objective: Describe a basic classification scheme for open fractures.

Room 316: A Call for Innovation and Collaboration: Preparing People with Spinal Cord Injuries for Care Transitions  
Maria Regina L. Reyes, MD  
Objective: Identify at least 2 strategies to facilitate care transitions from acute to chronic care after a spinal cord injury.

Room 317: Developing and Implementing PTSD & Comorbidity Screening and Intervention for U.S. Trauma Care Systems: Harnessing Evidence from a Western Washington Pilot Experience  
Douglas Zatzick, MD & Doyanne Darnell, PhD  
Objective: Describe national & regional efforts to develop screening & intervention procedures for PTSD & related comorbidities at trauma centers.

Room 318: Caring for the Pediatric Mass Casualty Patient  
Grant E. Keeney, MD, MS  
Objective: Describe patterns of injury for the most common types of mass casualties sustained by pediatric patients.

Courtyard Marriott Hotel  
Cascade Ballroom: Simulation: MASCAL: What Right Looks Like  
LTC M. Imad Haque, MD, FACS & LTC Christine M. Vaccaro, DO, FACOG  
Objective: Demonstrate triage and evacuation techniques for a mass casualty.  
Note: This is an interactive simulation that includes lifting, pushing, pulling and the use of simulated blood. Clothing may become soiled or stained. Participants should dress accordingly. Participation is at your own risk.

Pearl Room: Pediatric Dosing and Administration  
Christian Hamm, PharmD, BCPS; Yijing (Jenny) He, PharmD, BCPS & Tasheba West, PharmD, BCPS, MS  
Objective: Demonstrate how to calculate pediatric doses of commonly used medications in urgent scenarios (for the non-pediatric provider).

Ruston Room: Broselow™ The Good and the Bad  
Mary Koelemay, MD, MPH  
Objective: Express 3 benefits of using a color-coding system in pediatric patients.
Commerce Room: The Really Big One: Medical Surge and Crisis Standards of Care
Vicki Sakata, MD, FAAEM, FAAP
Objective: Describe the indications and factors involved in deciding whether to evacuate or shelter in place.

1505 – 1515 Dessert with Exhibitors – Main Ballroom
Greater Tacoma Convention & Trade Center

1515 – 1615 Oso Landslide: The Littlest Survivor
Jesselle Elaine-Marie Albert, MD, MHA; Lori Aviusini, RN, BSN, PCCRN; Michael Durkin, RN, CCRN, CFRN; Mary A. King, MD, MPH; Marty Ruffner, EMT-P

1615 – 1630 Evaluations and Adjourn
Mark Blaney RN, BSN, CEN
